

UMER FRAZ AHMED

MACHINE LEARNING ENGINEER

umerfraz2005@gmail.com | +92 312 4996619

SUMMARY

Motivated Machine Learning Engineer and Computer Science student at COMSATS University Lahore, blending academic knowledge with hands-on experience in machine learning, deep learning, and software development. Skilled in developing end-to-end ML pipelines, implementing algorithms in Python, and optimizing models for real-world deployment. Proficient in C++ (DSA), Python, SQL, TensorFlow, PyTorch, LLMs, RAG, and Scikit-learn, with strong database and API integration skills. Completed multiple ML and Data Science projects, including predictive modeling, image classification, and NLP tasks, currently learning azure and aws, preparing for az104 exam.

TECHNICAL SKILLS

- | | |
|---|--|
| • Programming: Python, C++, C, Java, Dart, C#, SQL | • Core Competencies: Data Cleaning & EDA, Feature Engineering, Model Training & Optimization, |
| • ML/DL Frameworks: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, LLMs, RAG | Deployment, Performance Optimization, Debugging |
| • Databases: MySQL, MongoDB, Firebase, SQLite | • Development Tools: Flutter, REST APIs, Git, GitHub |

MACHINE LEARNING & DATA SCIENCE PROJECTS

- Heart Disease Prediction Model (Classification — Scikit-learn)**
 - Implemented a complete ML pipeline to predict heart disease presence using patient health data.
 - Conducted data preprocessing, feature selection, and model tuning.
- Bulldozer Price Predictor (Regression — Scikit-learn, Pandas)**
 - Built a regression model to predict bulldozer sale prices using historical auction data.
- Dog Breed Classifier (Computer Vision — TensorFlow)**
 - Created a deep learning model to classify 120+ dog breeds from images using transfer learning.
- Freelance Market Analysis (Pandas, Matplotlib)**
 - Analyzed freelancing trends and created insights for strategic gig selection.

EDUCATION

Bachelors in Computer Science — COMSATS University Lahore

Feb 2024 - Present

- **CGPA: 3.52 (4th Semester)**
- **Relevant Courses:** Data Structures & Algorithms (C++), Database Systems, Object-Oriented Programming, Machine Learning, Software Engineering, Computer Networks

CERTIFICATIONS

- **Machine Learning & Data Science Bootcamp** — Zero To Mastery (Udemy)
- **Data Structures and Algorithms in C++** by sir abdul bari
- **Problem Solving with C** — Udemy
- **Complete Guide to Evaluating Large Language Models(LLMs) by Pearson** — LinkedIn Learning
- **Advanced LLMs with Retrieval Augmented Generation (RAG)** — LinkedIn Learning
- **50 Days of DSA in Python** — Udemy
- **Agile Project Development** — Coursera
- **SQL & Databases** — ZTM
